We have a dream, to be the best for our team, community, environment, and the world. We use the power of our business to help solve social and environmental problems. We are change makers who are part of a global movement of people who use business as a force for good.

How We Do What We Do

- ▶ **Atmosphere** – We gauge the success of our company's culture daily by listening for laughter and looking for smiles that indicate team members are enjoying their work and each other.
- ▶ **Communication** – We kick off each day with a huddle where team members share their priorities, highlights from the day before, road blocks that stand in the way of a goal and an uplifting moment with a fellow team member.
- ▶ **Goals** – We develop common goals where team members work together to achieve success through collaboration resulting in increased self-confidence and a tight-knit atmosphere.
- ▶ **Accountability** – We believe creating and maintaining a positive team culture is sacred. We protect our team's harmony through rigorous vetting processes when hiring and hold everyone accountable for their actions. We demonstrate integrity and make it clear that we expect the same from everyone on our team.
- ▶ **Sense of Accomplishment** – We inquire about what our team members aspire to achieve in their career and personal life to keep them on a course of learning, which helps their overall success and happiness.

CLIENT TESTIMONIAL

What our spa partner says about us

"Everything is perfect as I assumed it would be. I've only seen a few services with the products so far, but they have been VERY well received. The first Chocolate Decadence Body Wrap I did was fantastic. It was a woman whose birthday was the following day and she never had a wrap of any kind before. Just describing the service to her and showing her the product she teared up and gave me a big hug. She was blown away by the smell and feel. Then that was followed with an 80-minute massage. When she came out of the room she was floating on a cloud and very calmly said 'I better be careful around all these women smelling like this they may try to take a bite.' Also, the Champagne Mimosa Sugar Scrub paired with the Oatmeal, Milk & Honey Body Butter (Orange Creamsicle Body Immersion) is definitely a winner. You really knocked it out of the park with that. So, thank you for all the care and love that goes into your products, all your hard work shines through for sure."
